Lilienthal Hits A-Bomb Article

Washington, June 16—(AP)—David E. Lilienthal said today in an article in this month's "Nation's Business" magazine that the article is "inaccurate," "reckless and irresponsible," and that it contains "certain statements" regarding "highly classified pieces of information."

Lilienthal, chairman of the Atomic Energy Commission, told the Senate House atomic committee that the article is "inaccurate," "reckless and irresponsible," and that it contains "certain statements" regarding "highly classified pieces of information."

Lilienthal said the commission has had the article under study, to see if it violates security regulations, and then a few minutes later added:

"We are consulting at the earliest possible date with J. Edgar Hoover, director of the FBI, about possible security violations."

"Nation's Business" is published by the Chamber of Commerce of the United States.

Its editor, Lawrence F. Hurley, refused to comment on Lilienthal's complaints because he had not had a chance to study them. But he said the whole purpose of the article was to examine the atomic policy, to see if it is right, and to see how it is carried out.

Truman Given Power To Revamp Executive

Washington, June 16—(AP)—Congress today granted President Truman sweeping powers to reorganize the executive department and agencies of the federal government with their 2,100,000 employees.

Swiftly, the House and Senate approved the compromise version of the reorganization bill which had been worked out by a joint committee of senators and representatives after a month's disagreement.

The measure is considered the most indispensable key for putting into effect the detailed recommendations of the bi-partisan commission created by congress to study reorganization of the government. Former President Herbert Hoover, who headed that commission, repeatedly urged enactment of the reorganization bill.

The compromise bill provides that any reorganization plan the president sent to congress would go into effect 60 days later, unless (1) a majority of the whole membership of either house disapproved the plan, or (2) congress adjourned its session before the 60-day period was over.

Hoover has estimated that savings of \$3,000,000,000 or more a year or either house disapproved the plan, or (2) congress adjourned its session before the 60-day period was over.

Stevenson Voices Displeasure Over Senate's Actions

Springfield, Ill., June 16—(AP)—Governor Stevenson today expressed displeasure over action of the republican dominated Senate on three legislative proposals he is backing.

The democratic governor told a news conference he was "disappointed" over what happened to bills that would:

1. Make the Illinois Commerce Commission "non-political," stagger and lengthen commissioners terms and raise their salaries.

2. Unify administration of the state free employment service and the division of unemployment compensation, both under the state labor department.

3. Permit housing of dependent children whose parents were not veterans in the state Soldiers' and Sailors' Children's school at Normal.

The bill to consolidate the employment and unemployment compensation services was defeated yesterday by the Senate. Stevenson said votes of the GOP majority killed it.

Also, he said, they should read how it came out.

Said Mr. Truman: the hysteria died down, the country didn't go to hell—and the country isn't going to hell now.

A reporter whose history was rusty wanted to know more about the alien and sedition laws.

Read the history of the Jefferson administration, the President said.

Another reporter said that the first thing Jefferson did was to re-lease 11 newspaper publishers who had been in jail.

Mr. Truman joined in the laughter, and said Jefferson probably made a mistake. The President recalled Jefferson also had freed a jailed judge.

For the benefit of those who, like the reporter, find their alien and sedition history rusty:

The laws, passed during John Adams' administration, provided—

1. For the deportation of aliens considered dangerous.

2. For lines or imprisonment for persons making "false, scandalous or malicious" statements that would bring the president or congress into "contempt or disrepute."

Twenty-five persons were arrested, ten were convicted.

The laws expired under Jefferson's administration, and he pardoned those who were convicted.

Truman Labels Current Commie Hunts As Postwar Hysteria

Washington, June 16—(AP)—President Truman said today that there's hysteria after every war, and that the current spy hunts come under that heading. Eventually, he said, the hysteria dies down.

Adopting the role of history professor at his news conference, Mr. Truman said it would be a good thing if those alarmed about the fate of the country would read up on the alien and sedition laws, passed in the 1790s. He said they would be surprised at the parallels between then and now.

Also, he said, they should read how it came out.

McUTCHEON, HOOSIER

(St. Louis Post-Dispatch)

Adventures in the far parts of the world never washed the Wabash moonlight out of John T. McCutcheon's heart. He always seemed to have about him a flavor of Booth Tarkington and James Whitcomb Riley.

Most people nowadays probably think of McCutcheon only as a cartoonist. But in his earlier days he had quite a reputation as a war correspondent. After all, he scored a scoop on the Battle of Manila bay at a time when taste in battles was less jaded. But he probably always cared more for India ink than typewriter ribbons. He scored an early artistic success when he illustrated for his Purdue classmate, George Ade, the famous "Fables in Slang."

The Tippecanoe county, Indiana, characters which first appeared in those illustrations never wholly disappeared from McCutcheon's work. They gave a human touch to his political cartoons, a touch which made the cartoons a bit incongruous as accompaniments to the Chicago Tribune's bitter political polemics.

McCutcheon came to own a palatial pleasure island. He came to have a studio strewn with tiger skins. His art may not have been destined for museum walls, but it conveyed his opinions of the high and the mighty. But it was most his own when he was drawing barefoot boys or braided little girls in high-button shoes. Then it spoke eloquently of a day when loyalties were more simple and goals more clear, and life seemed somehow happier—at least in Hoosier cornfields and Hoosier towns.

FEDERAL MINE SAFETY

The present federal mine safety laws are almost useless, since only recommendations can be made under them. Hearings are now being held on a bill empowering the federal inspectors to withdraw miners from dangerous areas.

It may be that such a measure would constitute an illegal infringement on state rights, as some of its opponents claim, but if there is to be successful mine safety control in the country, it will probably have to be done by the federal government.

It is not so much that the states have been derelict as that it is very difficult for them to enforce safety rules in mines whose operation would be rendered uneconomical by the enforcement. That is the real drawback. A state hesitates to put a mine out of business when it sees mines that are no safer doing a flourishing business across the border. Only the federal government could meet the problem directly. But even federal control might not work unless it included power to close or subsidize some of the mines.

Britain, The Land Of Impatient Patience

BY HAL BOYLE
London—(AP)—There is the sound of many hammers here in the land of the over-boiled potato. And the sound of many complaining voices. There is confidence in the sound of the hammers—and authority. For the hammers are rebuilding battered England. But in the complaining voices are doubt and uncertainty. There is either dissatisfaction with the way that England is going or dismay that it hasn't achieved more for the common man down the new political path it has been traveling. Says one young voice of socialism: "Yes, we've got many things we didn't have before. But we English are losing the taste for Scotch whisky and meat, because we get so little. And that is bad for us because whisky and beef made us great." And a voice from the political past says:

Neither Faction Satisfied

"They are trying to do too much here for everybody. It can't be done in a small land that lives by bringing raw materials here for manufacture and shipping the products elsewhere for sale. Ninety percent of the people will have to go back to living the way they always did. Then the ten percent with exceptional ability can live as well as their brains and initiative entitle them to."

It is hard for a visitor to weigh and what they mean to the future and interpret the complaining voices of the United Kingdom. But the visitor does get one clearcut impression—that neither the classes nor the masses are satisfied with the present scale of austerity. Both want more than they are getting now of everything—except more shortages. I came here with a group of war correspondents revisiting European battle areas on a tour sponsored by the American Overseas Airlines.

Hasn't Changed Too Much

London hasn't changed as much as you'd expect. The face of the great gray lady by the Thames is wrapped in scaffolding as workmen restore the beauty pitted by German bombs. They have cleared away the debris of many gutted buildings and turned them into car parking sites. Big Ben still tells the passing hours. The people still stand patiently in long queues for most of the things they desire—buses, theatrical entertainment, prized food items at the grocery stores. You have a feeling that England would be lost if everyone broke from the queue at once to grab a bus seat, instead of patiently taking his turn. There'll always be an England, you sense, as long as the English accept the discipline of necessity—and they still do. But they are a little weary of being complimented on their courage and endurance. They want the brave new world of promised plenty to come a little faster.

Children To Give Summer Pageant At Centenary

The church school workers of Centenary Methodist church will present a pageant entitled "Summer Festival of Praise" Sunday at 10:45 a. m. under the direction of Mrs. Chalmers Babb. The theme of the pageant is the coming of the summer season and its value to all. Over 61 boys and girls will take part in the pageant, with 44 of them in costume. The Methodist Youth Fellowship choir will sing the summer songs of praise, with Miss Myrtle Larimore at the organ. Mrs. Arthur Webster has charge of the committee arranging the decorations for the church. The public is invited to attend. There will be no preaching service.

Baptist Vacation School Children To Give Program

For the past two weeks a large number of children have been enjoying the Vacation Church school held at the First Baptist church. A program will be presented on Sunday, June 19, at 7:30, in the church sanctuary. All parents and friends are at liberty to witness the products of the school.

A brief program which will be presented will consist of singing of special musical numbers, round table discussions pertaining to the Bible, dramatic presentations and pantomime. Following the presentation, certificates of credit will be given and the presentation will be made by the pastor, Clair E. MacCombs. To each pupil Mr. Robert Hills, the school dean, will present a pennant. The hand-work this year has been correlated with the theme of the school. Excellent work has been done, and all interested persons are asked to review the handicraft in the social room of the church, following the program.

THE DOCTOR SAYS

Contact Spreads Scabies; Caused By Insect Bite

By EDWIN P. JORDAN, M. D.
Written for NEA Service
During periods of war, scabies or as it is commonly called the seven-year itch, tends to increase. This disease is caused by an insect—sarcoptes scabiei—which burrows into the skin causing terrific itching and irritation.

The disease is more common in the colder months, perhaps because bathing is less common. In the typical case the itching is worse at night than during the daytime. Although scabies is more frequent among those people who do not practice personal cleanliness, it is by no means confined to such individuals.

Scabies is acquired from someone else who harbors the insect which causes it. Consequently avoidance of contact with those who might be involved is the best method of prevention. Since the disease tends to involve families or communities, it is important to treat all of those who may have the disease and not just the one who happens to seek the doctor's help.

Not only should possible contacts be sought out and carefully examined for the disease, but bedding, towels, clothing, and other articles which touch the skin should be treated, usually by heating.

Many good treatments, some new, some old, are available. Various sulfur preparations have been recognized for years as valuable for this disease. In addition, there have been a number of new good treatments proposed including DDT, a chemical called benzobenzate, rotenone, pyrethrum, and others.

Most of these substances, however, can produce secondary irritation of the skin or other complications, so that their use except under observation of a physician is not advised.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

THE DOCTOR ANSWERS

By EDWIN P. JORDAN, M. D.
Question: What can be done for water blisters which break out on the hands or feet every year? I have tried numerous remedies.

Answer: It is dangerous to try all kinds of remedies on the skin as you have apparently done. A proper diagnosis should be obtained and only then can the correct treatment be employed.

How To Keep House In An Office

Chicago—The National Association of Building and Managers has come out with some hints for better office housekeeping. Here are the suggestions:

Get rid of cuspidors. They are outmoded and unsanitary and create a floor hazard.

Keep desks, tables and cabinets away from the walls. They may mar the paint and plaster. Lack of space between walls makes it hard on the cleaning lady.

Keep casters on swivel chairs, typewriter stands and other equipment oiled. Defective casters damage floor coverings.

Don't put oversize desks and tables in an undersized office. If the space between the furniture and the wall is too narrow, the paint will be soiled by "body brushing."

If you want to pin up something,

pin it on a cork bulletin board. Keep notices and charts off the walls. Use desk calendars.

Don't put books, boxes of flower pots on radiator tops or window sills. They spoil the paint surface, handicap the window washer and may fall out on a passing head.

Keep floors and the tops of cabinets free of books, magazines, papers, samples, etc. They collect dirt.

There is no reason why our offices should not be kept as neat and smart looking as our homes. Says the association: "Do you realize that we spend more of our waking hours in our offices than in our homes?"

Siam Told To "Prepare For War"

Bangkok.—Military leaders of Thailand "Siam" have been told by Defense Minister Lt. Gen. Luang Chart Nakhon that Siam will be involved in internal politics because it is their duty to prepare themselves for the war that lies ahead.

"At present, the struggle is now merely a verbal one between those

supporting opposing political doctrines," the minister told 23 lieutenant colonels just graduated from the Army Staff College.

"Each day this verbal struggle can be seen developing into what in the near future will be a real struggle of force. Once the struggle has begun, there can be little question that Siam will be involved. Therefore, we must prepare. We must be on the alert."

"In preparing for this struggle, we must be careful not to meddle in internal politics or allow ourselves

to be instruments of politicians. Our ideal must be that as soldiers we are not to meddle in politics and to see that politics does not meddle with the armed forces."

Rye bread or pumpernickel sandwiches are delicious with a filling that features ripe olives, ham, and cottage cheese. To make it, measure about three-quarters cup of the olives, then cut the olives from the pits in rather large pieces. Mix the olives with three-quarters cup of ground cooked ham, three-quarters cup of creamed cottage cheese, and mayonnaise or creamy salad dressing to taste. These amounts will make about one and three-quarters cups of sandwich filling.

Corn Resealing Plan Available To Farmers

A corn resealing program under which farmers may earn a storage payment of 10 cents per bushel will be available to farmers in all Illinois counties except those located in the Angoumois Moth area, according to an announcement Thursday by Lee M. Gentry, chairman of the State Production and Marketing Administration committee.

This program permits producers—(1) to extend their loans on 1948 crop corn to mature July 31, 1950, and (2) to put purchase agreement corn under loan to mature the same date. Farmers who comply with this program, either by resealing or putting their purchase agreement corn under loan will be entitled to a storage payment of 10 cents per bushel for the extended period if the corn is delivered to Commodity Credit Corporation at maturity of the loan.

The deadline for taking advantage of the resealing program is October 31. The program applies in all counties except the southern third of the state which includes St. Clair, Clinton, Marion, Clay, Jasper, Cumberland, and Clark, and all counties south of that line.

The re-seal program is designed to slow down the excessive movement of corn off the farms that would result from heavy deliveries of loan and purchase agreement corn to CCC this fall, explained Chairman Gentry.

Farmers Have Option

Originally, loans on the 1948 crop were to become due on September 1, 1949. Now farmers have the option of paying off loans at that time, of delivering the corn to CCC, or—later than October 31, 1949, of extending the loan to mature July 31, 1950.

Under the original program, the CCC also agreed to buy, during the 30-day period immediately following the maturity date of 1948 loans, any quantity of the 1948 crop up to the maximum a producer had under a purchase agreement at applicable delivery rates. The re-seal program now permits producers with a purchase agreement to sell to CCC, or to keep the corn, or to put it under loan by October 31 at the 1948 loan rates, with the loan to mature July 31, 1950.

Farmers who do not have price support protection on the 1948 crop still have until June 30 to take out a Purchase Agreement, added Wallace T. Hembrough, chairman of the

Test Shows How Anemia Drug Works

Buffalo, N. Y.—(AP)—A new test shows how and why certain drugs work against pernicious anemia in humans.

The test promises to aid in better treatment of the disease. It is reported by Dr. Oliver P. Jones, assistant dean of the University of Buffalo Medical School, and Adolph Smith of the department of anatomy.

Anemia is due to the body's failure to make enough red blood cells in its bone marrow factories. The cells that form there don't divide and grow in the normal way. The failure comes from lack of a chemical usually supplied by the liver.

Drugs like liver extract, folic acid and the new vitamin B-12 usually overcome the trouble. Just how they do their work hasn't been clear. It's hard to get at the bone marrow in humans to see what is happening. So Dr. Jones turned to primitive blood cells in unborn rats, when these embryos are only 11 days old. These blood cells had formed before the embryo livers had developed or started to work. The rat cells at this time resemble the cells in the bone marrow of humans with pernicious anemia.

By feeding anti-anemia drugs to the mother rats, he can see what effect the drug has on the blood cells themselves. The test also can show whether there is anything in a new drug that would work against anemia.

Judge Smith Named 1950 President Of Carrollton Alumni

Carrollton—Judge Clem Smith of this city was elected president of the Carrollton Alumni Association at the business meeting which followed the alumni banquet Tuesday evening in the public school building. Other officers elected were Nell Cunningham, vice president, Clem Dunsworth, secretary, and Mrs. Opal Schild, treasurer.

The banquet, a revival of the custom which was discontinued through the war years, was attended by 193 persons. It was planned to again have annual alumni banquets.

The program honored the class of 1924, as well as the graduating class of 1949. The graduating class was presented by Superintendent Olin Stead and an address of welcome was made by R. L. Scott, president of the class board. Miss Mary Ellen Hubbard, as president of the class of 1949, made the response.

Mr. Egelhoff of this city, who graduated from the local school in 1887, had the honor of being the oldest member of the association present, with second honors going to Dr. and Mrs. N. D. Vedder, who both graduated in 1898.

The musical part of the program consisted of several vocal solos and quart numbers by Miss Aline Harney and Miss Virginia Johnston of White Hall, with Mrs. Marian Broberg of White Hall as accompanist. Judge Julian Hutchens of White Hall was chairman of the program committee. The remainder of the evening was spent in dancing to the music of Jimmie Conlee's orchestra from Jacksonville.

Chicago Livestock Market Report

CHICAGO LIVESTOCK MARKET REPORT

Chicago, June 16.—(AP)—Hogs and cattle were generally lower in the livestock trade today but sheep held fully steady.

Markdowns on porkers amounted to 25 to 50 cents a hundred pounds at \$18.50 to \$20.75 for butcher weights plus a sparingly paid top of \$21.00. These were at 170 to 320 pounds, but heavier weights were scarce. Sows took \$13.00 to \$18.00 and a top of \$18.25.

Cattle prices ranged unevenly from steady to 30 cents lower and vealers from 50 cents to \$1.00 down. Steers grading medium to choice brought \$22.00 to \$27.00, the top. Common to low-good beef cows made \$15.25 to \$19.00 and medium and good sausage bulls \$20.00 to \$22.00. The practical top on choice vealers was \$23.00.

Native slaughter lambs took \$23.00 to \$25.50 and choice ewes topped at \$9.50. Small lots of choice lambs fetched \$26.00 from small killers.

Among estimated salable receipts were 8,500 hogs, 2,500 cattle, 500 calves, and 800 sheep.

Youngsters usually like a salad if it has raisins in it. Here's a raisin-carrot-banana combination they'll really go for. Pour boiling water over a cup of seedless raisins and let them stand about five minutes, then drain them well and chill them. When you're ready to serve put the chilled raisins in a bowl with a cup of grated carrot and a cup of diced banana, and enough mayonnaise to moisten; mix lightly so as not to crush banana. Serve on crisp lettuce leaves to six hungry young people.

For a new kind of dessert, put a cup of drained canned fruit cocktail in a container, add a cup of sour cream and two cups of cut marshmallows; mix well, cover, and allow to stand in the refrigerator overnight. Serve chilled in sherbet glasses to six to eight people.

SOCIALIZING BURMA

Rangoon.—(AP)—The Burma Socialist Party has published the framework of its reconstructed constitution based on Marx-Lenin principles. A party statement said it will be practiced in Burma in conformity with world and local conditions. The party declared it aimed to confer power upon property-less people and to build up a new era of Socialist economy.

Five "iron-clad" rules must be observed by all seeking membership in the party, the statement said. They will be required to accept unconditionally the Marx-Lenin creed; unwaveringly follow party rules; accept responsibility entrusted to them.

Ten rules of conduct have also been drawn up for intending members. Three are:

Total abstinence from liquor; non-violation of women's chastity; non-misappropriation of public revenue and party funds.

BUMPER CROP GETS A BOOST—This new trailer lift, installed at a 40,000-bushel grain elevator in St. Mary's, Kan., picks up and dumps a 40-ton loaded trailer in 90 seconds. The 50-foot truck and trailer platform swings 33 feet through a 40-degree arc. The new "raise-the-truck" method is expected to relieve the bottleneck at grain elevators during harvesting of this year's bumper crop.

Marty Marion Takes Lead From Reese In NL Shortstop Polling

Chicago, June 16—(AP)—Veteran Marty Marion of the St. Louis Cardinals wrestled the lead from Brooklyn's Harold (Pee Wee) Reese in the All-Star poll for National league shortstop today.

Marion held a 3,211 vote margin, 29,352 to 26,141, over Reese as the total ballot reached 100,000 in the national-wide voting to pick the American vs. National league lineup for the All-Star contest at Brooklyn, July 12.

National league:

Dr. Cary Middlecoff's victory in the National Open golf tournament at Chicago last week installed him as favorite in the field of 124, which includes a handful of amateurs.

Long-driving Chick Harbert, home pro at the 6,616-yard Meadowbrook Country Club course, predicted a score of 271 or better would win the tournament.

It will be a medal play affair, with 18 holes in each of the four days. The field will be cut to the low 60 players for the Saturday and Sunday rounds.

Ben Hogan, winner of the initial Motor City tournament last season, was due to be a spectator today. He was injured in an auto accident several months ago and has not played competitive golf since then.

There will be plenty of goldfom's pro stars on hand, however, with Bobby Locke, Jimmy Demaret, Lloyd Mangrum, Horton Smith and Sam Byrd included in the list.

Konstanty Wins Own Game As Phils Defeat Cubs 4-3

Chicago, June 16—(AP)—Relief pitcher Alex Konstanty singled across the decisive run in the ninth inning to win his own game today when the Philadelphia Phillies edged the Chicago Cubs, 4 to 3, before a chilled crowd of 4,899.

It was the fifth straight victory for the Phillies and the fifth loss in a row for the Cubs, the last four of which have come under the regime of new manager Frankie Frisch.

Walt Dubiel was breezing along behind a 3-0 lead, piled up against Schoenboer Rowe, until the eighth when the Phils rapped him for four straight doubles to tie the score.

Bob Muncrief stopped the rally but in the ninth he passed Bill Nicholson who moved around on singles by Ralph Cabrera and Konstanty.

Hank Sauer, obtained in the Cincinnati deal with Frank Baumholtz, broke into the lineup immediately with the Cubs. Another important switch was the shifting of Andy Patko back to third base, where he operated last season.

Hudson, who posted his fourth win, permitted only one hit in the last five innings.

Washington scored off Embree in the second inning on consecutive singles by Eddie Robinson, Al Kozar and Sam Dente. The Senators scored four times in the seventh.

Lou Klein, Cardinal infielder who turned Mexican jumping bean in 1946, jumped back into the Red Bird lineup with a bang yesterday afternoon. "Larrupin Lou"—pinch hitting for "Red" Munger—kept the Cardinal 7th inning rally alive with a sharp single off the Bum's third baseman and two plays later knocked catcher Bruce Edwards loose from his belt buckle to score one of those game-winning four runs.

Klein established some sort of a record when he became the first Mex jumper to appear in a big league line-up. Maybe his award will be a pair of dark glasses to dull the glitter of "fools gold" the next time its offered.

Somehow we don't think Lou will be happy in St. Louis. Red Schoendienst—who moved him off second as a regular in '46—is still in the line-up bigger and better than ever. Eddie Dyer can use him as a regular infielder just like he could NOT use a catcher. However, the boom years are over and maybe Lou will be satisfied to "fill in" and draw his \$5,000 per annum.

Max Lanier—who skipped town with Klein—is still hanging, pending contract dickering. Another strong addition to the port-side of Dyer's mound staff wouldn't hinder the St. Louis march to a '49 pennant.

Don Wavering—the injured motorcycle racer—is still unconscious at Passavant hospital. Critically injured at the Morgan county fairgrounds Sunday, he's moving into the sixth day of unconsciousness and his condition is still described as critical by the attending physician.

John Campbell, our Ivy League correspondent, reports that Bill Stuart—star Winchester athlete—has been named a candidate for the 1949 Plebe class of West Point. Sid Simpson, Carrollton congressman, made the appointment.

The Journal-Courier weekly award for persistence will have to go to the Peoria Roszell's softball pitcher who performed against Myers Bros. Wednesday evening. Campbell—the twirler—seemed to lose his stuff along about the 7th frame of the 9-inning tilt, and began applying rosin in huge quantities to the ball, his glove, his clothes—in fact, everywhere but his hair.

Joe Hill—calling 'em from behind the plate—warned the youth several times about "doctoring" the ball, but Joe's warnings fell on deaf ears. The Peoria infield would gather 'round the pitcher and a cloud of resin would float over their heads like cigar smoke at a political caucus. The game ended with the Myers Bros. management shouting protests, and Campbell throwing hooks as wide as aunt Bessie.

Again, we say—Softball managers return those applications for the Invite tourney. We need five more "I do's" from local and area teams before the schedule can be drawn up. Someone is going to be left on the outside looking in, but it won't be YOU if you'll drop that little piece of paper in the mail RIGHT NOW.

Fans in the Journal-Courier area are responding magnificently to the All-Star poll. The sports department is swamped with votes for favorites every day.

Chisox Win 10-6 And Then Lose 5-4 In N.Y. Twinbill

New York, June 16—(AP)—The New York Yankees picked up a half game on the second place Detroit Tigers today despite splitting a double header with the Chicago White Sox.

After dropping the opener, 10-6, the Yankees won the second game, 5-4, to increase their first place margin over the losing Tigers to four and a half games.

Fred Sanford, the \$100,000 purchase from the St. Louis Browns, completed his first game of the season, holding the Sox to eight hits in the nightcap. He was helped by Johnny Lindell, whose home run and double featured the Yankees' last two runs.

The Chisox combined some lusty slugging with Tommy Byrne's wildness to score nine runs in the first two innings to sew up the opener. George Metkovich, playing his first game for the Sox after his purchase from Oakland, drove in four runs with a home run and two singles.

Cass Michaels also collected three hits including a homer for the visitors.

Cleveland Defeats Sliding Red Sox In 6 To 3 Contest

Boston, June 16—(AP)—Cleveland's world champion Indians cashed in on four walks, an error and a Joe Gordon double for four runs in the opening inning today and went on to defeat Boston's sliding Red Sox 6-3. It was Cleveland's fifth consecutive victory and enabled them to sweep the three-game series.

Three runners were aboard after as many walks and a force play when Gordon stroked a double off the wall in center. The hit bounced by Dom Dimaggio as three runs scampered across the plate. Gordon went to third on an error and scored on a fly out.

That was the ball game right there. The Sox were able to score only once in each of the third, fifth and seventh innings.

It was the sixth victory for Mike Garcia.

Joost Gets 15th Homer As A's Whip Tigers 7-3

Philadelphia, June 15—(AP)—Eddie Joost hit his 15th home run to move into a tie for the league lead as the Philadelphia Athletics defeated the Detroit Tigers 7-3 today.

The victory sent the Athletics within one game of the second place Tigers.

Joost's homer came in the seventh inning with one on off of Hal Newhouse. The blow tied him with Vern Stephens of the Boston Red Sox.

Lou Brissie was shaky at the start as Detroit combed his southpaw slants for seven hits and all their runs in the first four frames. Then he settled down and Johnny Groth's eighth-inning single was the only other safe blow.

Jake LaMotta Batters Cerdan To Become New Middleweight Champ

Detroit, June 16—(AP)—Squat Jake LaMotta, from New York's teeming Bronx, won the world middleweight championship after eight years of trying tonight when he stopped an injured Marcel Cerdan of Casablanca in the 10th round at Briggs stadium.

The swarthy little French Moroccan, who won his precious crown last September from Tony Zale, was a one-armed man after he apparently suffered a shoulder injury in the first round.

Under Michigan rules it was a 10th round knockout although Cerdan did not use his left hand after the shoulder injury except for defensive purposes.

Dr. Joseph Calahan said superficial examination of the shoulder did not reveal the extent of the damage.

Cerdan, who was at 1591 in today's second weigh-in, was simply no match for an aroused 1581-pound LaMotta who hammered him almost at will. Only sheer courage kept the gallant Casablancon on his feet through the last five rounds of savage two-listed basting.

Cerdan injured his left shoulder while throwing a left hook. After watching their man take a fearful beating in the ninth, Manager Joe Longman and Lew Burston, Cerdan's American representative, called on Dr. Calahan to examine the fighter.

Referee Johnny Webber then stopped the battle.

Cerdan claimed he hurt his shoulder shortly before he fell and was half pushed to the canvas near the close of the first round. He thought he might be able to continue and beat LaMotta with one hand. That was a bad mistake.

When he did try to throw one left hand punch in the fourth, he said, the pain was so intense that he never tried again. Referee Webber said he heard "something snap."

According to Dr. Vincent Nardiello of the New York State athletic commission, Cerdan suffered a "tear of the supraspinatus muscle of the left shoulder."

It was a glorious victory for rug-

Moose Club Clips K. Of C. Nine 6-3; Ruh, Durocher Win

The "threes" had it at Nichols park last night as the Moose clipped the K. of C. nine 6-3 in the feature "A" league contest on the local diamond. The Moose scored trios of runs in the first and third frames to count their winning total while the K.C.'s rallied in the fifth to score their three runs.

Teasers twirled ably for the Moose to rack up a victory for himself and his club. Jake McGrath did a neat hurling job for the K. of C. club, allowing only five hits, but his mates were unable to get the necessary runs for him.

Ruh & Durocher Win
Ruh and Durocher's "B" league entry came whipping from behind to tally five runs in both the sixth and seventh innings and edge the Merchants 10-9 in the preliminary bout. The Merchants were resting on a 9-0 lead going into the fatal sixth chapter.

ISLAND OF ESCAPE

Copyright by Hugh Lawrence Nelson. Distributed by NEA Service, Inc.

XL
She wasted no time on the side cave George had used. It must be in the other, Mollie's quarters. And there would be no need or time for clever concealment. No one could take it away without observation except by a special expedition.

Bea scratched with her fingers in the loose sand on the floor of the side cave. She found many carefully buried leather sacks. She picked one up. It was heavy and gave out the muted clink of metal.

A faint sound made her crouch, drop the flash. The thrown rock, which would have crushed her skull, clattered from the cave wall instead.

She faced the person who meant to kill her.

"I should have known," Bea said. She talked quickly, shifted her weight, got a firmer grip on the gold bag she still held. "I should have known from the moment you told me 'he had a little farm and a home and I had them through him.' That was the only way you'd learned to get the things, possessions, you wanted most in life. Make yourself indispensable to men by protecting their property, and gain control and security for yourself. And when you came to Spenser Island you no longer cared how you accomplished your purpose. You began prying and spying that first night when you saw where I hid the automatic. And you heard Lilly join forces with Sillwell. You killed Lilly in time."

"She was no good."

"She got things from men in a way you never could. So you can call her no good. You protected your interests. You helped Mollie, egged her on to make a complete fool of Harding—so he would turn to an opposite when the inevitable happened."

"But you were too late when you killed the mate of the Simpatico. You were smart enough

to guess the fire had been set, to get us out of the main house, and there might be danger to the other installations. You left the fire, went back and got the rifle. But you weren't quick enough to prevent the explosion, because the dynamite had been planted in holes already drilled. You killed the mate because he'd blown up the buildings. You couldn't let your record of self-appointed guardian show a failure.

"Fred Sillwell of course was marked for death from the moment you killed Lilly here in this cave. Surprised you, didn't it, when she came up in the cave? But you killed Fred too late, needlessly. You saved the gold he was trying to hide so he could return for it in the future. You can't save yourself."

Bea picked that split second to throw the heavy bag of gold into Mabel Jones' face.

MABEL JONES threw up a hand too late to ward off the heavy leather bag. She staggered back, out into the main part of the cave. Bea snatched up the flashlight, hurried to follow up her momentary advantage. She used the flash to knock aside the first grab of Mabel's long arms. She swung it again against the side of the woman's head and Mabel went to her knees.

Bea moved forward cautiously. "You can't get away, Mabel. Why not give up?"

Mabel said dispiritedly, "Yes, I suppose you're right. But the others would miss me this time. I couldn't leave my dress to be seen this time, could I?"

Bea heard the sound of steps outside the cave, turned her head. She tried to swing the light again as Mabel moved. She was too late. The arms that wrapped around her body were bands of living rope.

"Never too late," Mabel said softly, "for you to die."

Bea kicked out viciously, felt her heel grate against a kneecap.

She fell to the floor of the cave. She kicked out again.

Mabel grunted, pulled herself to her knees, came closer, hands outstretched. Bea swung the light again. This time the force of the blow jolted it from her grasp. It rolled across the floor of the cave, scattering its beam crazily on floor and rock sides.

Mabel Jones caught Bea's wrists. Bea continued the movement, rammed her head against the blur of Mabel's face.

BEA felt the smooth steep slope of the cave floor beneath her now. She lay motionless, listening to a soft sliding sound. Once again her wrists were gripped in strong fingers. She felt the strain of Mabel Jones's weight. She used her knees to brace on the smooth stone. The forward movement stopped.

"We're going to slide into the water," Mabel whispered huskily. "The crushing rock."

"Don't move!" Bea cautioned. "Maybe I can hold you until help comes."

"What help for me?" Mabel asked.

Light at the cave entrance was obstructed. "Miss Cosgrove? Mrs. Jones? Where are you?"

"Hurry," Bea called. "There's a flashlight on the floor. Hurry! We're sliding!"

She heard Henry Harding's sharp exclamation, a flurry of steps and then the beam of the flash shone on them.

"Get out of my way!" Nona McGuire said shrilly. "Don't just stand there! Do something!"

The flashlight beam wavered. "Let go of me!" Nona cried. "If you won't help save then I will! Let go of me! They're going to slide!"

"Wait," Harding ordered. He focused the light again, directly on Mabel's face.

The woman released the hold on one of Bea's wrists, used the hand to shade her eyes. Bea hauled at the smooth rock, trying to get a handhold. She felt the slip of smooth stone beneath her. Another few inches and momentum would carry them down.

"Mabel Jones," Harding said. (To Be Continued)

Work Starts On Last Strip Of New Highway South Of Jacksonville

The O'Connor Construction company of Springfield has been awarded the contract for grading and paving of Federal Aid Highway 164, south of Jacksonville. The bid submitted was \$465,553.

Work on the highway is already under construction. It leads off of U. S. Route 67, beginning about four miles south of Jacksonville, extending to a point east of Murrayville, where it will connect with the section of the highway which has already been completed.

The stretch now completed ends about two miles south of Greenfield at the Carrollton-Carlville road. Plans call for the extension of the highway south through Rockbridge, connecting with Route 111 at Medora.

The completed highway will shorten the distance to Alton and St. Louis about 12 miles.

The stretch now under construction will pass Woodson, shortening the distance between Jacksonville and Murrayville nearly a mile and eliminating two curves. Work is expected to be completed this fall.

The road will not only be smoother and straighter, but will have an additional safety feature in that it will be 22 feet wide, as compared with the 18 foot width of Route 67.
